Svay Chrum, Khsach Kandal, Cambodia

Software Development Student & Fullstack Developer Trainee

PROFESSIONAL SUMMARY

Motivated and passionate Year 3 Software Development student at Norton University, with a strong foundation in both frontend and backend technologies. Recently completed a full-stack development course at ANT Technology Training Center under a 100% scholarship from MPTC and CRBD Fund. Experienced in building real-world web applications through collaborative projects, with a focus on clean code, responsive design, and effective teamwork. Eager to contribute to dynamic development teams and continue growing as a full-stack developer.

CORE SKILLS AND EXPERTISE

- **Frontend Development:** HTML, CSS, JavaScript, Bootstrap, React.js, Ejs
- **Backend Development:** Node.js, Express.js, MySQL
- **Tools & Technologies:** Git/GitHub, Figma, Photoshop
- **Soft Skills:** Team Collaboration, Problem Solving, Time Management, Critical Thinking

EDUCATION BACKGROUND

- **Bachelor of Science in Software Development** | Norton University, Phnom Penh | **(2022 – Present)**
- **Fullstack Development (1-Year Course)** | ANT Technology Training Center (MPTC & CRDB Funded Scholarship) | **(2024 – 2025)**
- **Highschool Diploma** | Hun Sen Khsach Kandal Highschool | **(2019 – 2022)**

KEY PROJECTS

Team Project: Employee Management System (Cope Beta) | (Jan 2025 – Mar 2025)

- Collaborated in a team of 6 to build a full-featured Employee Management System using **Node.js**, **Express**, and **EJS**
- Took lead in developing the **QR Code Scan Attendance** feature with **real-time notifications** using **Socket.IO**, enabling employees to check in/out via dynamic QR codes and instantly receive updates on **OT requests**, **leave approvals**, and **admin announcements**.

Team Project: laundry service ordering platform (Boakuk) | (Oct 2024 – Nov 2024)

- Collaborated in a team of **5 members** to develop an **online laundry ordering system** that allows users to request laundry services with scheduled **delivery and pick-up**.
- Took responsibility for implementing the **Fetch API** to dynamically retrieve and display service-related data from the backend.

LANGUAGES

- Khmer (Native)
